SPARKORA

AN INTER - COLLEGIATE HACKATHON

ROUND 1 – IDEA PRESENTATION

- Teams will present their proposed solution for 4 - 5 minutes using the PPT format provided by the organizers as idea pitching.
- The PPT format will be shared with participants before the offline hackathon.
- The presentation should clearly explain the problem, proposed solution, key features, SDG, and technical approach.
- This round will encourage participants to analyze challenges and formulate creative, technology-driven solutions.

ROUND 2 – PROTOTYPE DEVELOPMENT & FINAL EVALUATION

- Teams may develop their submitted ideas into a working prototype either before or during the hackathon.
- Teams must complete their prototype by incorporating the suggestions provided by the mentors and be ready to present it to the Judging Panel from the 6th hour of the hackathon onwards for final evaluation.
- The Judging Panel will evaluate each team based on the submitted idea, technical implementation, working prototype, and quality of the final presentation.
- The top three teams will be selected based on their overall performance in the final evaluation.

HACKATHON RULES & REGULATIONS

- 1. College ID** is mandatory for all participants.
- 2. Team Size:** Each team must consist of 2–3 members.
- 3. Problem Statement:** The problem statement will be announced on 9 September 2026.
- 4. Registration Deadline:** Interested participants must register through the official online portal on or before 15 September 2026.
- 5. Idea Submission:** Teams must submit their proposed solution as an A3-size abstract through the official online portal on or before 15 September 2026. A sample abstract format will be provided by the organizers.
- 6. Mandatory Requirement:** Teams are required to bring a hard copy of the A3-size abstract submitted online to the offline hackathon as a mandatory requirement.
- 7. Offline Rounds:** The offline hackathon consists of two rounds:
 - Round 1:** PPT-based idea presentation.
 - Round 2:** Technical development, prototype building, and final presentation.
- 8. Development Time:** Teams must be ready to enter the judging panel from the 6th hour of the hackathon.

HACKATHON RULES & REGULATIONS

9. Final Evaluation: Judges will evaluate the idea, prototype, technical implementation, and presentation according to the official evaluation criteria.

10. Originality: The submitted idea and developed solution must be original. Plagiarism, copying, cheating, or unauthorized use of another team's work will result in disqualification.

11. Mentorship & Resources: Mentors may provide guidance, but the development and implementation must be done by the participating team. Participants are responsible for their devices, software, backups, and network connectivity. Venue Wi-Fi will be provided, and personal mobile networks or dongles may be used as backup.

12. Winners & Certificates: The top three teams will receive First, Second, and Third Cash Prizes. Winner and Participation certificates will be provided to participants.

13. Jury Decision: The decision of the judging panel will be final and binding.
